

SPECIAL EDUCATION

Covenant Academies

Special Education

Covenant Academy offers a continuum of special education programs and services. Special education professional staff includes: special education teachers, school psychologists, school social workers, speech and language pathologists, occupational therapists, and physical therapists. Our professional staff members provide instruction and support for our students with disabilities and their families. Covenant Academy also collaborates with other public school districts within the county and the local ISD to provide educational options for our students.

Michigan Special Education Reference

Do you know where you can easily find policy and regulatory information about Special Education? There is an online database for state and federal special education documents called the Michigan Special Education Reference (MI-SER). The Michigan Department of Education (MDE), Office of Special Education (OSE) oversees the MI-SER as part of its commitment to better serve its stakeholders.

The MI-SER can easily be accessed from the OSE website at www.michigan.gov/ose-eis.
